

ROSE BOWL RIDERS VOLUNTEER GARDEN WORK PROGRAM

Please contact Anna Armstrong at armstrongwalker@gmail.com

1. Sweep clubhouse patio once per week, put leaves in composter, monitor galvanized planters on patio
2. Rake picnic area once per week, put leaves in composter, sweep off picnic tables & benches
3. Weed clubhouse planter beds once per month, careful pruning, monitor moisture & plant health
4. Weed front driveway once per month (don't pull wildflowers!), careful pruning
5. Weed north half of upper ring fence line once per month, rake & put leaves in composter, check hoses & reels
6. Weed south half of upper ring fence line once per month, rake & put leaves in composter, check hoses & reels
7. Weed edges of round pen & guest corrals once per month, rake & put leaves in composter, careful pruning
8. Weed outside edges, back area of oval ring & historic barn area once per month, rake & put leaves, pine needles, & dead branches in composter, careful pruning
9. Weed edges of south driveway to lower level once per month, rake and put leaves in composter
10. Weed outside edge of lower ring once per month, rake and put leaves in composter, sweep & organize furniture in seating areas at edge of ring
11. Weed big slope once per month (don't pull wildflowers or native plant seedlings!), check & report if plants have died

12. Sweep wash rack once per week, help shovel dirt and debris out of drainage ditch when needed
13. Weed trail & edge area between mare motels & drainage ditch once per month, rake and put leaves in composter, careful pruning
14. Weed slope and trail behind south tack barn once per month, make sure cactus, poison oak, and overhead branches are clear of trail, pick up dead branches
15. Weed planters along east boundary at lower level once per month (don't pull wildflowers or native plant seedlings!), some careful pruning
16. Help with watering barrel planters at lower level once per week (when dry), monitor plants
17. Do larger gardening jobs at 2- 5 hour work days (Saturdays) in May and November
18. Complete a one-time larger job (8-10 hours) - build a compost area with wood-and-pipe walls, replace plants that have died (supplied by RBR), other tasks that may come along (list your suggestions)
